#### Description:

The Prester is an Offensive Weapon acquired from Small Pistol Grunts. The Prester is a somewhat weak Offensive Weapon that will be plentiful on the battlefield, providing the player with a “fallback” option for dealing medium amounts of damage. It's most effective at close-to-medium range, with a sharp falloff after 15 meters. Each bullet deals 8 damage, and the Prester can be fired at roughly 3 shots per second, resulting in 24 damage per second. This is far from an optimal damage output, but the Prester's accuracy and availability make it a fine option for many situations. As a semi-automatic precision weapon, the Prester has minor spread that grows the longer it is continuously fired, but the spread never grow far from the exact center of the player's reticle.
